PROCESS STANDARDS

- Attachers must inform CPS Energy/Contractors when attachment construction is completed
 - Notice is required to initiate post construction inspection
 - Final permit will not be received until passing post construction inspection
- Wireline routes should follow existing CPS Energy pole lines

COMMUNICATION FIBER PLACEMENT

- Wireline routes should follow existing CPS Energy pole lines
- Attachers shall place their fiber on the same side of the pole as CPS Energy Fiber
 - Safety issues – Failure to do so causes a safety issue for CPS Energy Linemen that have to climb these poles
 - Attaching to the same side of the pole alloweh6eq1sa samplr fand smooe orses a
